Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in United Kingdom on 12/23/1999. It is noted, however, that applicant has not filed a certified copy of the U.S application as required by 35 U.S.C. 119(b).

Specification

2. The disclosure is objected to because of the following informalities:
- a) On page 1, line 6, word: "Discreet" should be changed to --Discrete--.
Please correct the same misspelling mistake throughout the entire disclosure.
 - b) On Page 5, L 23, "inputs N(k)" should be changed to --inputs V(k)--.
Appropriate correction is required.

Claim Objections

3. Claim 5 is objected to because of the following informalities:
- a) The phrase: " The method according to claim 5" should be changed to --
The method according to claim 4--. Appropriate correction is required.
 - b) The phrase: " a second power per channel level" should be changed to --a
second power mask per channel level--.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 2 and 6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claims 1, 2 and 6, the specification has failed to describe the limitation: "a residual impulse spectrum". The specification only discloses impulse response $h(n)$, which has different meaning and concept than a residual impulse spectrum. Therefore, a residual impulse spectrum was not clearly defined for understanding.

Allowable Subject Matter

6. Claims 3, 4, 7, and 8 are allowed.

7. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a first power per channel level and a second power mask per channel. Moreover, the additions of a cross channel interference value to an interference noise value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eva Yi Zheng whose telephone number is 703-305-8699. The examiner can normally be reached on 7:30-4:30.
